Total Amended Running time:			88.34

Classification Decision:

Objectionable except if the availability of the publication is restricted to persons who have attained the age of 18 years.

Display conditions:**Section 27**

on film

The film must be publicly displayed only in premises set aside for the public display of restricted publications (whether or not articles other than restricted publications are also displayed in those premises).

Descriptive Note:

Contains explicit sex scenes.

Direction to issue a label has not been given.

SUMMARY OF THE REASONS FOR DECISION:

The video recording focuses upon explicit male to female and female to female sexual activity set in the context of a sex agency. Activities include masturbation, fellatio, cunnilingus, vaginal and anal intercourse. Three scenes depict the use of urine in association with sexual conduct. In the context of a video recording intended to sexually arouse the viewer, the use of urine in association with sexual conduct is supported given the depictions of explicit sexual activity. Under s3(2)(d) of the Act, publications which promote or support or tend to promote or support the use of urine in association with sexual conduct are deemed objectionable. The importer of this video recording has subsequently agreed to excisions removing all depictions of urination. In consideration of this factor and the criteria as identified, the video recording is classified as objectionable unless restricted to persons who have attained the age of 18 years.
